

## PROFILE

I am a motivated and ambitious Software Developer currently pursuing a Bachelor of Information and Communication Technology (BICT) at the University of Rajarata. With a strong foundation in programming languages such as Python, Java, and JavaScript, I am developing expertise in web development, data structures, and software engineering principles. Passionate about problem-solving and creating innovative solutions, I aim to leverage my academic knowledge and technical skills in real-world applications. I am eager to apply my learnings in a professional environment, contributing to dynamic development teams and continuing to grow my software development career.

Junior Software Developer  
Junior Web Developer

## EDUCATION

**Bachelor of Information and Communication Technology (BICT)**  
University of Rajarata, [\[Location\]](#)  
Expected Graduation: [Year-2028]

## WORK EXPERIENCE

### Freelance Web Developer

Designed and developed responsive websites for local businesses, creating front-end and back-end solutions using HTML, CSS, JavaScript, and Node.js.

## CERTIFICATIONS

### Python for Beginners – [University of Moratuwa]

Completed a comprehensive course covering Python syntax, data structures, and essential programming concepts, equipping me with the foundational skills to develop Python-based applications.

E-Certificate available here: [\[E-Certificate\]](#)  
Verification Code: [\[dyqbCOoKh2\]](#)

## SKILLS

**Programming Languages:** Java, Python, C++, JavaScript, SQL

**Web Development:** HTML, CSS, React, Node.js

**Version Control & Collaboration:** Git, GitHub

**Problem Solving & Algorithms:** Strong understanding of data structures, algorithms, and object-oriented programming (OOP) principles

**Soft Skills:** Communication, Time Management, Critical Thinking, Adaptability
